

Free Environmental Information Seminar

Pollution Kills an estimated 60,000 Americans every year. That is the equivalent of the casualties of 18 World Trade Center attacks or the Vietnam War, every single year. We can all lend a hand to stop this tragedy.

COME SEE HOW YOU CAN:

- ◆ Make your gasoline go further
- ◆ Avoid using harmful chemicals and pollutants
- ◆ More efficiently weather proof your home
- ◆ Learn of the latest technology for energy conservation
- ◆ Get fantastic tips on how to drastically reduce your energy bills

GUEST SPEAKER DENNIS LEE

Top speaker on environmental issues

Was featured on Good Morning America and USA Today.

*The World is
after all, What
We make it.*

Inducted into the International Inventor's Hall of Fame in 1996
